PROFESSIONAL SUMMARY

Frontend & Mobile Developer with 2.5+ years of software development experience specializing in Flutter, Angular, Vue.js, and React.js, building scalable and high-performance web and cross-platform mobile applications for Android and iOS. Experienced with Flutter/Dart, Provider, Riverpod, BLoC and GetX, REST APIs, GraphQL, Firebase including FCM, modern frontend development, B2B, e-commerce, HRMS and SaaS applications. Strong focus on clean architecture, responsive UI/UX, performance optimization, maintainable code, end-to-end development and deployment, and Agile collaboration.

TECHNICAL SKILLS

Languages: Dart, Java, JavaScript, HTML, CSS

Mobile: Flutter, Android, iOS, Cross-Platform Mobile Development

Architecture & State: Clean Architecture, MVVM, MVC, Provider, Riverpod, GetX, BLoC

APIs & Auth: REST APIs, GraphQL, JSON, JWT, Bearer Token Authentication

Payments: Razorpay, QPay, SkipCash, MyFatoorah, TAP, Visa, Mastercard, Apple Pay, mada; SDK, WebView and backend API integrations

Firebase: Firebase, FCM, Push Notifications, Firebase Analytics

Maps & Device: Google Maps, location selection, address/location picker, markers, distance calculation, routes/navigation, fingerprint/biometric, Face ID, camera, QR

Storage & Documents: Local storage, secure storage, PDF generation/viewing/downloading

Testing & QA: Postman API testing, Flutter unit/widget/integration tests, regression testing, manual QA, physical Android devices, iOS simulator

Release & Tools: Shorebird, OTA updates, Git, GitLab, GitHub, CI/CD, AWS, Postman

Frontend: Angular, Vue.js, React.js

AI Tools: Claude, Cursor, Antigravity

Business Logic: Calorie, BMI, macro/nutrient, age/weight/height, subscription, meal and dynamic pricing calculations

PROFESSIONAL EXPERIENCE

Mobile Developer & Frontend Dec 2025 – Present

Cocopalms Information Technology and Services

- Develop and maintain Flutter applications for Android and iOS using Clean Architecture, MVVM/MVC patterns and GetX, Provider and Riverpod.
- Worked on 17+ production applications released through Google Play Store and Apple App Store, including YalDiet, Healthy Diet, Bizo Diet, Approved Life KSA, Balanced Bite, Dietsteps, Calculate Diet, Carbs, Champions Diet, Guilt Free Kitchen, Nura, Prime Fuel Diet, Pure Health, Steamed, Under Thirty Diet, Engage and Rentings.
- Implement JWT/Bearer-token authentication, REST/GraphQL integrations, JSON handling and backend API workflows.
- Integrated payment gateways including Razorpay, QPay, SkipCash, MyFatoorah, TAP, Visa, Mastercard, Apple Pay and mada using SDKs, WebView redirection and backend APIs.
- Implemented SMS/email OTP verification and integrated FCC Falcon KWT SMS, SMS Easy and MSG91 gateways.
- Implemented Firebase Cloud Messaging push notifications and Firebase Analytics.
- Implemented Google Maps features including location selection, address/location picker, markers, distance calculation and routes/navigation.
- Implemented biometric authentication including fingerprint and Face ID, along with camera, QR-code generation and local/secure storage.
- Implemented business and mathematical logic for calorie, BMI, macro/nutrient, age/weight/height, subscription, meal and dynamic pricing calculations.
- Personally handled Shorebird production release and patch workflows across 17 applications and performed patch testing.
- Implemented PDF generation/viewing/downloading and multilingual language translations.
- Optimized application performance, UI responsiveness and memory usage; debugged and resolved production issues.
- Performed API testing with Postman and supported Flutter unit, widget, integration, regression and manual testing.
- Contributed to Android and iOS release/deployment processes and production support.
- Worked with Git, GitLab and GitHub for source control and collaboration.
- Used Claude, Cursor and Antigravity as AI-assisted development tools.
- Collaborated with cross-functional teams and maintained technical documentation.

Junior Developer Aug 2024 – Dec 2025

Sresht Gyan Tech Solutions

- Built and maintained Chum Chum, a B2B e-commerce Flutter application for the Thailand region, developed end-to-end and continuously maintained.
 - Worked on product management, cart functionality and order workflows.
 - Implemented Provider-based state management and integrated REST APIs with JSON data handling.
 - Built reusable Flutter widgets and responsive UI components.
 - Performed bug fixing, testing, performance improvements and ongoing application maintenance.
-

Java Full Stack Developer Intern Aug 2023 – Jul 2024

MashupStack

- Developed web applications using Java, Spring Boot and React.
- Worked with REST APIs, databases and application deployment workflows.
- Supported end-to-end development and debugging of full-stack web applications.

EDUCATION

B.Tech in Computer Science — Lourdes Matha College of Science and Technology | Jan 2023

Higher Secondary — St Mary's HSS, TVM Pattom | Jan 2019

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- AI Tools & Claude Workshop — be10x | September 20, 2026
- Full Stack Website Development in Java/React — MashupStack
- Ethical Hacking Internship
- Advanced Fuel Injection on System with BOSCH — SKYY | 11/01/2020
- Scientific Computing with Python | 07/01/2021
- Python 3.4.3 Training — Spoken Tutorial, Project at IIT Bombay | 06/01/2021
- SCRUM Master Certification — Udemy | 2020
